

GSE will attend the 27th EU PVSEC Exhibition in Frankfurt (Germany)

The 27th EU [PVSEC](#) Exhibition takes place **from 25 to 28 September 2012** at the **Messe Frankfurt fairground in Germany**. This four-day trade show of the global photovoltaic and related industry attracts companies and solar organizations from around the world, is an excellent showcase for the technology and service providers of the PV Solar sector. It is the largest International Conference for Photovoltaic research and technologies and at the same time one of the top international PV Industry Exhibitions. The entire PV value chain from raw materials to final products, PV applications and related services will be present in PVSEC 2012, such as:

- manufacturers of production equipment
- manufacturers of PV modules and components
- supply industry
- suppliers of chemical compounds and gases
- PV applications companies
- PV system companies and distributors
- PV installation companies
- PV project development companies
- glass producers
- recycling and waste treatment companies
- etc.

[Gorosabel Solar Energy](#) will be present showing the latest developments for Solar PV market, most notably the new [GTS-18 Tabber and stringer](#). The new stringer model of GSE named **GTS-18** is a milestone in Tabber & Stringer history. This machine has **real capacity of 2000 cycles** (1800 c/h based on 10 cell/string), being **the fastest single stringer** in the market, with **50% higher production capacity** than traditional 1200 c/h stringers. Apart of the high capacity, this machine is equipped with the latest technology in soldering equipments.

Visit us, our personnel will be glad to inform you about this and the rest of the range of **GSE** solution for solar PV market. You will find us in [booth 3.0/H19a](#)
